## CalHIVE BHI Connect - April 2024

Happy spring to you all! This month we will consider how behavioral health integration can support person-centered, equitable care. At the April 16 CalHIVE BHI Commons, we invite all teams to come ready to reflect on their lived experiences, learn about health equity, identify opportunities to advance health equity through BHI and practice how to develop equity-focused AIM Statements.

We are also excited to recognize [Chinese Hospital's](#) progress to improve equitable integrated care.

We encourage all of our data leads to join to exchange best practices, troubleshoot and connect with your peers.

Thank you to those organizations who have already submitted data. If you have any questions or need to request a formal

### **Improvement Advising**

Starting in April, your Improvement Advisor will be reviewing the second round of the Implementation Milestone Assessment Tool, or IMAT. As a reminder, this tool captures implementation progress, and is a key program deliverable that will demonstrate graduation readiness for the next phase of CalHIVE BHI. Your Improvement Advisor also recently shared pre-work for our May in-person convening which includes: finalizing a SMARTIE Aim Statement, completing a CalHIVE BHI Accomplishments Poster, and collecting current workflows.

### **Snapshot: CFHA/CQC California Integrated Leaders Meeting**

On Wednesday, March 20, CFHA and CQC hosted the first statewide conversation of California integrated leaders. Attendees discussed shared challenges around the culture shift required for integration, BHI financing and workforce development.

- Please complete this [survey](#) about potential follow-up topics and meetings for the group.

CFHA has also launched a collaboration space (BaseCamp); if you're interested in being added to the BaseCamp group, please contact your IA.

### CalHIVE BHI Communications

Our team recently released a [publication](#) highlighting the differences between the Collaborative Care Model (CoCM) and Primary Care Behavioral Health (PCBH) models, and how organizations can best make a model selection. Thank you to Pomona Valley Hospital Medical Center for being profiled in the publication!

Feel free to share this resource with any partners you think should better understand integration implementation.
